CONGRESS BACK IN SESSION, CR INTRODUCED. A continuing resolution to fund federal programs for the first six months of FY13, starting October 1, is scheduled for votes in the House September 13 and in the Senate next week. H. J. Res. 117 would give most programs, including housing, increases in subsidy (budget authority) needed to remain at FY12 program levels. It does not address grandfathering of housing program eligibility in growing rural communities; the National Rural Housing Coalition continues to work for an extension of current language.

ADMINISTRATION’S SEQUESTRATION REPORT DELAYED, CBO PREDICTS RECESSION. White House Press Secretary Jay Carney told reporters the Administration needed more time to prepare the report to Congress required by the Sequestration Transparency Act, due on September 6, so the estimates on the impact of Budget Control Act funding cuts will be released later this week. Separately, An Update to the Budget and Economic Outlook: Fiscal Years 2012 to 2022, by the Congressional Budget Office, projects that policy changes scheduled for January 2013, including sequestration, “will lead to economic conditions in 2013 that will probably be considered a recession.”
